

Food Systems in European Cities

Deliverable 3.3

Composition of stakeholder panels second version

Project Acronym and Name	FoodE – Food Systems in European Cities
Type of action	IA – Innovation Action
Grant Agreement No.	862663
Work package	WP 3 Cross pollination
Dissemination level	Public
Document type	Report
Lead partner	HCA
Authors	Aleksander-Mihail- Atanasov, Margot Bolhuis, Lélia Reynaud-Desmet, Antonella Samoggia
Contributors	All partners
Planned delivery date	January 31 st 2022
Actual delivery date	January 28 th 2022
Project website	FoodE
Project start date	February 1 st 2020
Duration	48 months
Version	1.0

1. The FoodE Stakeholder and Advisory Board

The FoodE Stakeholder and Advisory Board (SAB) ensures an active involvement of key international stakeholders. The SAB includes representatives of public administrations (city councils, metropolitan areas, countries), schools, citizen driven CRFS initiatives (urban farmers association, citizens and food councils, school garden working groups), researchers (HEIs) and SMEs involved in innovative CRFS.

The SAB is composed of:

Stakeholder Board:

- **COMPOSITION:** includes representatives of public administrations (city councils, metropolitan areas, countries), schools, CRFS initiatives, research institutes and civil society organisations
- **ACTIVITIES:** active participation in FoodE KidScience activities and MyLocalFoodE initiatives.

Advisory Board:

- **COMPOSITION:** Experts of CRFS, in measure of 1-2 individuals representing each category of the stakeholder board
- **ACTIVITIES:** will provide specific advice on project activities and results. They are also invited to specific project meetings and MyLocalFoodE initiatives.

2. List of Stakeholder Board

Since its last update (D3.2) the following new organisations joined the Stakeholder Board:

INSTITUTION	COUNTRY	CITY	Description
Public administrations (PAs)			
Ministry for Environment, Agriculture, Conservation and Consumer Protection NRW	Germany	Düsseldorf	Local authority
Landservice		Münster	An organization of the chamber of agriculture
Schools			
Tartosa Montse	Spain	Sabadell	Secondary school
Area metropolitana de Barcelona, Servei infraestructura verde		Barcelona	School
Observatori de la Alimentacion		Catalunya	Academic network
Civil society			
Associazione si può dare di più onlus	Italy	Napoli	Promote social work inclusion
Associazione Sott'e'ncoppa		Napoli	Promotion of fairtrade
CRFS initiatives			
Ateliere Fara Frontiere	Romania	Bucharest	Integration of social enterprise

The table below represents an updated overview of the organisations composing FoodE's Stakeholder Board:

INSTITUTION	COUNTRY	CITY	Description
Public administrations (PAs)			
DRIAAF - Direction Régionale Interdépartementale de l'Alimentation, de l'Agriculture et de la Forêt d'Ile-de-France	France	Cachan	Decentralized services of the Ministry of agriculture
Ville de Paris - City of Paris		Paris	Local authority
Ministry for Environment, Agriculture, Conservation and Consumer Protection NRW	Germany	Düsseldorf	Local authority
Landservice		Münster	An organization of the chamber of agriculture
Comune di Belluno (Belluno city council)	Italy	Belluno	
Osly Country	Norway	Oslo	
Mestna občina Ljubljana	Slovenia	Ljubljana	City council
Area Metropolitana de Barcelona (BCN Metropolitan area)	Spain	Barcelona	
Institut Municipal de Persones amb Discapacitat		Barcelona	Social inclusion in urban agriculture

Cabildo Insular de Tenerife		Tenerife	Island Government
Concejalía de Promoción Económica de Granollers		Granollers	Municipality
Oficina Catalana al Cambi climatic		Barcelona	Group of researchers involved in decision-making linked to climate change
Pla Estratègic Metropolità de Barcelona, relacìon institucionals		Barcelona	Public enteties
Agencia de Residuo Catalunya		Barcelona	University
ConSORCI Metropolita del Habitatge		Barcelona	Public institution related to livelihood
Schools			
Federal working group School Garden North Rhine-Westphalia	Germany	Cologne	Working Group School Gardens
Lycée des metiers de l'horticulture et du paysage	France	Montreuil	
Collège Gustave Courbet		Romainville	School
Istituto Agrario Cecchi	Italy	Pesaro	High school
Liceo Silvestri		Portici	
Liceo Ginnasio Luigi Galvani righi		Bologna	High school
Liceo Scientifico Augusto Righi		Bologna	High school
Istituto di Istruzione Superiore Arrigo Serpieri		Bologna	High school
Istituto Comprensivo n. 14		Bologna	Primary and secondary school
Istituto Comprensivo n. 12		Bologna	Primary and secondary school
Istituto Manfredi Tanari		Bologna	High school
Comenius Lyceum	Netherlands	Amsterdam	
Lentiz MBO Oostland		Bleiswijk	Secondary school
Hersleb Upper Secondary school	Norway	Oslo	
Liceul Teoretic Miron Costin	Romania	Iasi	
Scoala Gimnaziala Bodgan Petriceicu Hardeau		Iasi	
OS Vita Kraigherja	Slovenia	Ljubljana	Primary school
Fakulteta za dizajn, Univerza na Primorskem		Ljubljana	Faculty of design
IES Puerto del Rosario	Spain	Fuerteventura	High-school
CEIP Las Mercedes		San Cristobal de la Laguna	School
CEIP Princesa La Tejina		Santa Cruz de Tenerife	School
Colegio Prácticas Aneja E.U.P.		San Cristobal de la Laguna	School
CEIP Guayonge		Santa Cruz de Tenerife	School
INS Ca N'Oriac		Sabadell	Secondary school
Tartosa Montse		Sabadell	Secondary school
CEIP Maximiliano Gil Melián		Santa Cruz de Tenerife	School
CEIP Prácticas Aneja		Santa Cruz de Tenerife	School

CEIP La Luz		Santa Cruz de Tenerife	School
CEO Leoncio Rodríguez		Santa Cruz de Tenerife	School
CEIP Acentejo		Santa Cruz de Tenerife	School
CEIP Ayatimas		Santa Cruz de Tenerife	School
Instituti Eugeni Xammar		Barcelona	Secondary school + high school
Salensians Sarria		Barcelona	Secondary school + high school
Instituto de Castellar		Barcelona	Secondary school
Area metropolitana de Barcelona, Servei infraestructura verde		Barcelona	School
IES Sabadell		Sabadell	
Observatori de la Alimentacion		Catalunya	Academic network
CRFS initiatives			
Peas and Love (Urban Farm/rent a garden)	Belgium	Brussels	Company that maintains the social and solidarity economy
AFAUP - Association française d'agriculture urbaine professionnelle	France	Lagraulet du Gers	Nationally influenced association
Lab3S - Laboratoire Sol, Savoirs, Saveurs		Bondy	Expertise about food systems sustainability. Networking
Campi Aperti	Italy	Bologna	NGO: farmers and citizens association
Arvaia		Bologna	Agricultural cooperative
Agricola Moderna		Milan	Vertical farm
Orto Giardino Peppino Impastato		Bologna	Collaborative gardening Association
Kilowatt		Bologna	Social Agriculture/coworking
ECO Logic	Montenegro	Podgorica	NGO, gardening and education
Codema (SME)	Netherlands	Bergschenhoek	Company developing horticulture solutions
Koppert Biological Systems (SME)		Berkel en Rodenrijs	Company developing horticulture solutions
Delphy (SME)		Bleiswijk	SME
Northen Company (Seaweed Harvest and Supply)	Norway	Oslo	
Asociația CRIES	Romania	Timișoara	NGO
Urban Health by Claire Association		Târgu Mureș	NGO
Asociația Convivia		Iași	NGO
Reper 21		Bucharest	NGO
Food Waste Combat		Cluj Napoca	NGO
Ateliere Fara Frontiere		Bucharest	Integration of social enterprise
Center za energetska učinkovitost	Slovenia	Ljubljana	Platform for stakeholders
La ruda	Spain	Sabadell	Organic Cooperative
Inedit		Barcelona	SME
Huertointhesky		Barcelona	Start-up
Frontiers media	Switzerland	Lausanne	
Civil society			

Les 4 conseils citoyens de Romainville (Cachin, 3 Communes, Bas Pays, Gagarine)	France	Romainville	Each working-class neighbourhoods has a council who represents them
La Ruche des Lilas		Les Lilas	Consumer group
Taste of Heimat Cologne	Germany	Cologne	Food council
Edible City Cologne		Cologne	Food policy council
Ernährungsrat für Köln und Umgebung		Cologne	Food Policy Council
Eta Beta	Italy	Bologna	Social cooperative
Open Group		Bologna	Social cooperative
Associazione si può dare di più onlus		Napoli	Promote social work inclusion
Associazione Sott'e'ncoppa		Napoli	Promotion of fairtrade
Cankarjev dom	Slovenia	Ljubljana	Cultural centre
World science cooking congress	Spain	Barcelona	
Teler Cooperatiu		Barcelona	Cooperative
Montserrat Sanahuja		Barcelona	Nutritionist
El rodal		Barcelona	Green groces store manager
Espigoladors		Barcelona	No profit association
Researchers			
Université Paris 8 Laboratoire LADYSS	France	Saint-Denis	Researchers
URBAL and CIRAD		Montpellier	Urban-driven innovations
Leibniz Centre for agricultural landscape research	Germany	Müncheberg	Research institute
Leibniz Institute of Ecological Urban and Regional Development (IOER)		Dresden	Research institute
Die Agronauten - Forschungsgesellschaft für Agrar- und Ernährungskultur		Freiburg	Non-profit research insitute
ICIE - Cooperative Institute for Innovation	Italy	Bologna	Research institute
Wageningen University and Research	Netherlands	Wageningen	University
Rural Development Research Platform	Romania	Iași	Research institute
Centre for agro-food economics and development (CREDA)	Spain	Barcelona	Group of researchers involved in agro-food systems
IAAC (Fab Lab Barcelona)		Barcelona	Partner of Foodshift2030
Fundacio Miguel Agusti		Barcelona	Involved in tomato heritage preservation

This list is continuously updated with new proposals made by the consortium that are discussed and approved by the General Assembly.

Stakeholder Boards have been created (under the coordination of HCA) between M2 and M6. In each partner country, 5 stakeholder panels have been formed, including representatives from CRFS initiatives (SMEs, NGOs, unions), public administrators and policy makers (PAs), school committee, researchers (HEIs) and representatives of the civil society (e.g. individuals, food councils, consumer organisations). First version of the panels was compiled by M8 (D3.2) followed by the present update at M24 (D3.3). The next updates are planned for M36 (D3.4) and M48 (D3.5).

Each panel will promote initiatives within T3.1.3. (MyLocalFoodE Initiative) and will take part in the co- design of priorities and regulations that will be adopted in the open challenge for pilot design and implementation (T4.3).

Regarding school committee, in particular, it will include all the schools that will host the KidScience activity. Thanks to KidScience activity, school pupils will be engaged in the MyLocalFoodE initiative by attending open-science events with researchers and food systems managers, presenting sustainable CRFS concepts and developing innovative pioneering strategies for implementing innovative food systems in their regions. Pupils will be involved in school competitions, challenges, hackathons, etc.

The reimbursement of costs of the Stakeholder Board members for participating to MyLocalFoodE initiatives will be covered directly by the partner responsible. That partner's budget will be adjusted by UNIBO accordingly in order to include these costs in the partner's budget if reported and accepted by the EC. The participation of the Stakeholder Board members in MyLocalFoodE initiatives will be discussed and decided by the General Assembly, on a case-by case basis.

Only if necessary, these members will sign a non-disclosure agreement (NDA). This will be evaluated and decided by the project coordinator on a case-by case basis (e.g. access to deliverables and any other confidential information).

3. List of Advisory Board

Institution/Person	Country	Organization type	Profile	Involvement in the project
Joan Rieradevall	Spain	HEI	Urban agriculture, Life Cycle Thinking	WP2, WP3, pilots, crosspollination
Pavle Dordević	Serbia	SME	Agronomist	
Franco Manna	Italy	SME	Entrepreneur	WP2, WP3, WP4, Pilots, crosspollination
Marco Merola	Italy	NGO	Scientific Journalist	WP7, crosspollination
Alexandra Martinovic	Montenegro	HEI	Food safety, Microbiology.	WP2
Stefano Draghetti	Italy	School	Professor of secondary school, entomology, natural sciences.	WP3, KidScience
Beatrice Walthall	Germany	NGO	Initiator of Berlin Food Policy Council	WP3, WP5, WP6.

This list can be updated with new proposals made by the consortium that need to be discussed and approved by the General Assembly. The organisations in the Stakeholder Board and individuals from the Advisory Board are featured on the project's website.

The reimbursement of costs of the Advisory Board members for participating to project meetings will be covered directly by the partners organising the meeting. The invitation to the project meeting of Advisory Board members will be approved by the coordinator and will require the signature by the expert of an NDA.

In the present update, no new member joined the Advisory Board.

4. Stakeholder board and Advisory board overview

Country	PAS	Schools	CRFS	Civil society	Researchers	Total
France	2	2	2	2	2	10
Italy	1	8	5	4	1	19
Netherlands	0	2	3	0	1	6
Norway	1	1	1	0	0	3
Romania	0	2	6	0	1	9
Slovenia	1	2	1	1	0	5
Spain	8	19	3	5	3	38
Germany	2	1	0	3	3	9
Other	0	0	3	0	0	3
Total	15	37	24	15	11	102

5. Ideas to recruit and involve partners

To expand the list of Stakeholder Panel members and the Advisory Board HCA will prepare a one-pager with a clear description of the advantages of being a members of the Advisory Board and Stakeholder Panel. This one-pager can be shared by all the partners within their network to gain more members.

In addition, HCA is planning to schedule interviews with members from the Advisory Board. This interviews will result in a blog article representing an Advisory Board member in order to better explain and communicate her/his profile and role.

The members of the Advisory Board and Stakeholder Panel are being added on the website.

6. Appendix I: Letters of Interest

Hereby, I :

Ms Anne-Cécile Daniel, in my quality of General Secretary of the AFAUP (French Association of professionals urban farmers), declare our interest in supporting the H2020 project entitled “**FOOD-E – FOOD systems in European cities**”, Coordinator: Prof. Francesco Orsini (Department of Agricultural and Food Sciences and Technologies, Alma Mater Studiorum – Università di Bologna). The proposal is submitted to European Union’s Horizon 2020 Societal Challenge 2 Work Programme 2018-2020, topic “SFS-24-2019: Innovative and citizen-driven food system approaches in cities”.

The organisation I represent is interested in joining the Stakeholder Advisory Board of **FOOD-E** project.

Should the project be financed by the European Commission, the AFAUP is therefore interested in joining the Stakeholder Advisory Board of **FOOD-E**.

In particular, the AFAUP will:

- Provide inputs, opinions and feedbacks aimed at the implementation of the Project activities, on the expectation of being able to taking advantage of the projects’ results for the benefit of our members and target audience in order to make the project activities respondent to the end users we represent;
- Participate, whenever possible, to the envisaged periodical meetings and international workshops, as well as through the involvement of other stakeholders to the Project;
- Participate to the activities aimed at the dissemination of the results obtained through our channels (web site, news letter, facebook twitter, Linkked In)

Any travel expenses related to the meetings, the seminars and workshops of the Stakeholder Advisory Board will be reimbursed by the Project, but no fees will be paid for the time spent to review the documents and to attend the meetings.

Yours sincerely,

Hereby, I:
Ms DALILA HASSANI, in my quality of director within the school of the Gustave Courbet, declare our interest in supporting the H2020 project entitled "FoodE – FOOD systems in European cities", Coordinator: Prof. Francesco Orsini (Department of Agricultural and Food Sciences and Technologies, Alma Mater Studiorum – Università di Bologna).
The proposal is submitted to European Union's Horizon 2020 Societal Challenge 2 Work Programme 2018-2020, topic "SFS-24-2019: Innovative and citizen-driven food system approaches in cities".

The school I represent is interested in joining the FoodE project activities, hosting workshops in which school pupils will become aware about regional and international experiences in the field of food systems, and participate in the evaluation and identification of their priorities for promoting sustainable food systems in their cities/regions.

Should the project be financed by the European Commission, (department of agricultural and food sciences and technologies) is therefore interested in joining the School Board (SB) of FoodE.

In particular, Gustave Courbet will:

- Support the organization of awareness creation events in which FoodE partners will provide information on sustainable city/region food systems;
- Promote the participation of school pupils in the assessment of FoodE dissemination products toward the creation of an e-book (in English and specifically prepared for teenagers) to be published by the international journal "Frontiers for young minds";
- Participate, whenever possible, to the envisaged periodical meetings and international workshops, as well as through the involvement of other stakeholders to the Project;
- Participate to the activities aimed at the dissemination of the results obtained through our channels (web college, internet,).

Any travel expenses related to the meetings, the seminars and workshops of the School Board (SB) will be reimbursed by the Project, but no fees will be paid for the time spent to review the documents and to attend the meetings.

Yours sincerely,

Date, January 18th 2019

Dalila Hassani

Letter of Interest

Hereby, I :

Mr Bertrand MANTEROLA, in my quality of deputy director of the Direction régionale et interdépartementale de l'alimentation, de l'agriculture et de la forêt d'Île-de-France, declare our interest in supporting the H2020 project entitled "FOOD-E – FOOD systems in European cities", Coordinator: Prof. Francesco Orsini (Department of Agricultural and Food Sciences and Technologies, Alma Mater Studiorum – Università di Bologna).

The organisation I represent is interested in joining the Stakeholder Board of FOOD-E project.

In particular, M.Bertrand Manterola will:

- Provide inputs, opinions and feedbacks aimed at the implementation of the Project activities, on the expectation of being able to taking advantage of the projects' results for the benefit of our members and target audience in order to make the project activities respondent to the end users we represent;
- Participate, whenever possible, to the envisaged periodical meetings and international workshops, as well as through the involvement of other stakeholders to the Project;
- Participate to the activities aimed at the dissemination of the results obtained through our channels.

Any travel expenses related to the meetings, the seminars and workshops of the Stakeholder Board will be reimbursed by the Project, but no fees will be paid for the time spent to review the documents and to attend the meetings.

Letter of Interest

Hereby, I

Dorothea Hohengarten, in my quality of member of the "Ernährungsrat für Köln und Umgebung" (Cologne Food Policy Council), declare our interest in supporting the H2020 project entitled "**FOOD-E – FOOD systems in European cities**", Coordinator: Prof. Francesco Orsini (Department of Agricultural and Food Sciences and Technologies, Alma Mater Studiorum – Università di Bologna).

The proposal is submitted to European Union's Horizon 2020 Societal Challenge 2 Work Programme 2018-2020, topic "SFS-24-2019: Innovative and citizen-driven food system approaches in cities".

The organisation I represent is interested in joining the Stakeholder Advisory Board of **FOOD-E** project.

Should the project be financed by the European Commission, "Ernährungsrat Köln und Umgebung" (Food Council Cologne), is therefore interested in joining the Stakeholder Advisory Board of **FOOD-E**.

In particular, "Ernährungsrat Köln und Umgebung" (Food Council Cologne), will:

- Provide inputs, opinions and feedbacks aimed at the implementation of the Project activities, on the expectation of being able to taking advantage of the projects' results for the benefit of our members and target audience in order to make the project activities respondent to the end users we represent;
- Participate, whenever possible, to the envisaged periodical meetings and international workshops, as well as through the involvement of other stakeholders to the Project;
- Participate to the activities aimed at the dissemination of the results obtained through our channels.

Any travel expenses related to the meetings, the seminars and workshops of the Stakeholder Advisory Board will be reimbursed by the Project, but no fees will be paid for the time spent to attend the meetings.

Yours sincerely,

Hereby, I:

Ms Victoria Hollmann in my quality of coordinator of the Federal Working Group School Garden North Rhine-Westphalia (BAG e.V.), I declare our interest in supporting the H2020 project entitled “**FoodE – FOOD systems in European cities**”, Coordinator: Prof. Francesco Orsini (Department of Agricultural and Food Sciences and Technologies, Alma Mater Studiorum – Università di Bologna).

The proposal is submitted to European Union’s Horizon 2020 Societal Challenge 2 Work Programme 2018-2020, topic “SFS-24-2019: Innovative and citizen-driven food system approaches in cities”.

The Federal Working Group School Garden North Rhine-Westphalia I represent is interested in joining the **FoodE** project activities, hosting workshops in which school pupils will become aware about regional and international experiences in the field of food systems, and participate in the evaluation and identification of their priorities for promoting sustainable food systems in their cities/regions.

Should the project be financed by the European Commission, Federal Working Group School Garden is therefore interested in joining the School Board (SB) of **FoodE**.
In particular, Federal Working Group School Garden will:

- Support the organization of awareness creation events in which FoodE partners will provide information on sustainable city/region food systems;
- Promote the participation of school pupils in the assessment of FoodE dissemination products.
- Participate, whenever possible, to the envisaged periodical meetings and international workshops, as well as through the involvement of other stakeholders to the Project;
- Participate to the activities aimed at the dissemination of the results obtained through our channels Training of school classes within the didactic garden (modular model garden) of the University of Cologne, within various schools.

Any travel expenses related to the meetings, the seminars and workshops of the School Board (SB) will be reimbursed by the Project, but no fees will be paid for the time spent to review the documents and to attend the meetings.

Yours sincerely,

Date 10.01.2019

SALIDA

Núm.: ...10404.....

Hereby, I .:

Mr JUAN CONRADO RIVERO GUILLÉN, in my quality of DIRECTOR of the CEO LEONCIO RODRÍGUEZ declare our interest in supporting the H2020 project entitled “**FoodE – FOOD systems in European cities**”, Coordinator: Prof. Francesco Orsini (Department of Agricultural and Food Sciences and Technologies, Alma Mater Studiorum – Università di Bologna).

The project has received funding from the European Union’s Horizon 2020 research and innovative programme, under the Grant Agreement **862663**.

The school I represent is interested in joining the FoodE project activities, hosting workshops in which school pupils will become aware about regional and international experiences in the field of food systems, and participate in the evaluation and identification of their priorities for promoting sustainable food systems in their cities/regions.

CEO LEONCIO RODRÍGUEZ is therefore interested in joining the Stakeholder Board (SB) and the School Committee of **FoodE**.

In particular, CEO LEONCIO RODRÍGUEZ will:

- Support the organization of awareness creation events in which FoodE partners will provide information on sustainable city/region food systems;
- Promote the participation of school pupils in the assessment of FoodE dissemination products toward the creation of an e-book (in English and specifically prepared for teenagers) to be published by the international journal “Frontiers for young minds”;
- Participate, whenever possible, to the envisaged periodical meetings and international workshops, as well as through the involvement of other stakeholders to the Project;
- Participate to “KidScience” awareness activities;
- Participate to the activities aimed at the dissemination of the results obtained through our channels, mainly through our website:
<http://www3.gobiernodecanarias.org/medusa/edublog/ceoleonciorodriguez/>

Any travel expenses related to the meetings, the seminars and workshops of the Stakeholder Advisory Board will be reimbursed by the Project, but no fees will be paid for the time spent to review the documents and to attend the meetings.

Yours sincerely,

Date: 02/09/2020

Hereby, I :

Mr. **Ioan Sebastian Brumă**, in my quality of President of the **Rural Development Research Platform Association (RDRP)** and Senior Researcher with **Romanian Academy, Iași Branch** (Institute of Economic and Social Research), declare our interest in supporting the H2020 project entitled "FOOD-E – FOOD systems in European cities", Coordinator: Prof. Francesco Orsini (Department of Agricultural and Food Sciences and Technologies, Alma Mater Studiorum – Università di Bologna).

RDRP is interested in joining the Stakeholder Board of FOOD-E project.

In particular, **RDRP** will:

- Provide inputs, opinions and feedbacks aimed at the implementation of the Project activities, on the expectation of being able to taking advantage of the projects' results for the benefit of our members and target audience in order to make the project activities respondent to the end users we represent;
- Participate, whenever possible, to the envisaged periodical meetings and international workshops, as well as through the involvement of other stakeholders to the Project;
- Participate to the activities aimed at the dissemination of the results obtained through our channels (in social media - Facebook and LinkedIN).

Any travel expenses related to the meetings, the seminars and workshops of the Stakeholder Board will be reimbursed by the Project, but no fees will be paid for the time spent to review the documents and to attend the meetings.

Yours sincerely,

Eco Logic portfolio

NGO Eco Logic was founded in February 2014. Since the early days of the organization we have been developing programs on continuous and long-term sustainable development through the concept of urban gardening, incorporating urban gardens as infrastructural elements of sustainable cities and education through the areas of ecology and sustainable development. The first project is known to the public as the “Ekologika Garden – from the garden to the city”, while our second project “School garden” is currently in the fourth year of its realization, and so far has been carried out in three elementary schools in Montenegro: “Dragiša Ivanović” and „Sutjeska“ in Podgorica, and „Vuko Jovović“ in Danilovgrad. Therefore, today we can proudly say that we are better recognized for our projects than for the name of the NGO that stands behind them.

1. Ekologika Garden – from the garden to the city

The project started in 2014. Its launch was funded by the Fund for active citizenship (FAKT) and Rockefeller Foundation, which enabled us to successfully the first phase of the project. It makes us happy that we are headed towards accomplishing the complete sustainability of the project. Its focus is creating concepts of urban gardens as specific models of infrastructure withing sustainable cities of the future, as well as introducing community gardening initiatives as new transitional ways of citizen gathering. The concept of urban gardens is based on principles of sustainability, local economy, ecological balance, environment protection, and citizen activism. The guide in our practice is the paradigm of permaculture as ecological design which mediates the relationship of the human community towards the (limited) natural resources our species has at its disposal.

1.1. A free-of-charge service to the community

Over the last four years, the „Ekologika Garden“ project has been – and still is – an accessible and free service for all citizens who want to tap into the world of urban gardening; to educate themselves and experiment with the possibilities and benefits this model has to offer. So far, the project has been realized on the locality of Mareza, not far away from Podgorica. More than fifty people took active participation and embraced their roles in the project. Also, extramural users, their families, friends, and interested citizens had the chance to take part and learn about this relatively new trend in sustainable urban development. To top it all off, we opened the doors of the space which was the designated location for this project for the free use by the pupils from several kindergartens and elementary

schools. As a pioneer project, the Ekologika Garden is interesting to other non-governmental organizations as well, especially those from the field of ecology. We successfully collaborated with the Scout Association Njegoš from Podgorica, International School of Practical Philosophy „Nova Akropola“, providing them with the space to implement some parts of their projects; as well as with the Nature and Gorica Lovers Association, elementary school „Dr Dragiša Ivanović“ and vocational high school "Spasoje Raspopović", with whom we have shared our knowledge of the fields of ecology, urban gardening, and permaculture. Through certain segments of the project, we have established the collaboration with the Ministry of agriculture, NGO Expeditio and the Petrović Njegoš foundation.

1.2. Volunteerism

Aside from our citizens, the Ekologika Garden has been a host to the volunteers from abroad who were interested in the ecological direction we represent. We take pride in hosting volunteers from all over the world – from New Zealand, over the Middle East, to Central and Western Europe, and North America, and representing Montenegro as an ecological state with all its potentials the right way. Besides the dimensions that deal with promoting inclusiveness, volunteerism, and philanthropy, this project also has the component of self-sustainability, which enables the activities to continue and improve year after year. More information: <https://www.facebook.com/bastaekologika/>

2. „Eko Atlas“ – platform for geolocating, mapping, and keeping records of the reforested and already existing trees

„Eko Atlas“, the project which was launched at the end of 2017, was the logical upgrade of the „Ekologika Garden“ concept, directed towards revitalization of urban, suburban and wider city area. That segment of „Ekologika Garden“ comprises of agroforestry, method which implies combining agricultural and forest managerial techniques to create dynamic ecosystems and abundant biodiversity, as well as to preserve the authentic landscape and agricultural land, which is an indispensable resource in healthy food production. For a country such as ours, which is ecological in principle, that has to be set as an imperative. On the road towards broadening the scope of reforestation activities, we aim at utilizing the comfort of the use of modern technologies to enable citizens to take active participation in this project, both individually and in collective activities that contribute to restoration of wood stock as well as to mapping the current state, which would make it easier to control the plant stock in the city in the future, and prevent non-planned and illegal cutting of trees on the outskirts of the city.

More information on the Facebook page: www.facebook.com/EkoAtlasCG/

Fall 2019 marked the beginning of a new dimension of Eko Atlas. Through collaboration with EU Info Center in Montenegro on their green campaign “Budi primjer, uključi se!” (engl. “Be an example, take

part!") we have given away dozens of oak tree seedlings we had grown ourselves, and organized reforestation activities in a number of locations around Montenegro.

3. Project „School Garden in Elementary School Dr Dragiša Ivanović“

Led by the idea of creating a sustainable school tied to the concept of urban gardens, this project resulted in the development of the first school garden in Montenegro. School gardens are „open classrooms“ which use all the (often unused) potential of the school and school property intending to broaden educational possibilities without leaving the schoolyard. The project's goal is to integrate school with the local community, raise ecological awareness among pupils, initiate ecological activities and promulgate informing on ecological topics among students. That is successfully being carried out through educational workshops on the topics of sustainability, energy efficiency, space estimation, environmental protection, permaculture, and through organizing ecological activities in the community, such as getting the students' parents, as well as the local community, volunteers and other civil society entities involved in the Ekologika Garden and in creating the school garden and contents for it.

Over the course of five years, about 1200 elementary school students and 300 kindergarten pupils (who attended the modified version of the program) attended the program lectures. The project is still being implemented. It has been supported by the Petrović Njegoš Foundation since Day 1. The Ministry of Agriculture supported the project during the school year 2017-2018. The Ministry of Education approved the project for each school year so far. Also, last year, as part of the program „Škola i grad/ SCHOOL4CITY“ which was launched by NGO „Expeditio – Centre for sustainable spatial development“ from Kotor, in collaboration with the Institute for Education and organization „JAS - Jugend Architektur Stadt“, our project has also been carried out in these elementary schools: „Sutjeska“ and „Vuko Jovović“; while within the collaboration with the Municipality of Ulcinj it has also been brought about in elementary school “Maršal Tito”.

4. Carbon footprint - Education and work on its reduction

From breathing, through eating, to shopping – every action we take comes at the expense of the Earth's wellbeing. The expense arises due to the CO₂ we emit on a day-to-day basis, and the currency in which its value is expressed is known as „carbon footprint“. It is a simple math problem: the lesser the expense we create, the healthier and more sustainable our activities are. But how does one even calculate one's carbon footprint, what comprises it, and how to bring it down to an acceptable level?

The answer lies in numerous concepts from the field of sustainable habits, which are already gaining popularity worldwide. Besides saving the planet, they also help people save money long-term, and bring about the transition to a life of ease. Through this segment, the public will get to know lifestyles such as:

- low impact
- zero waste
- minimalism
- off grid
- intentional living

Our activities are aimed at getting people acquainted with these concepts and equipping them with the relevant skill sets, as well as at promoting self-sufficiency and everyday creative expression which enriches people's lives with one more mastered craft and a lifestyle in accordance with the needs of the planet.
